FINANCIAL POLICY

In the interest of good health care practice, it is desirable to establish a policy to avoid misunderstandings. Our primary responsibility is to help patients experience good health and we wish to spend our time toward that end. Therefore, we would like to inform you of our financial policy.

- Any estimates for Patient treatment fees, are just an estimate
- Payment is due at the time of your visit
- Nutritional supplements and other supplies must be paid at time of visit
- Cancellation/No Show policy: 24 hour notice is required for all appointment cancellations. A $15.00 fee will be charged to the patient for all late cancellations and no shows.

Self Pay Patients: When you are paying for services on the day of your visit and we are not billing your insurance company, filling out any type of forms or paperwork or waiting for payment, we offer a bookkeeping discount on some services.

Medical Insurance: As a courtesy to patients, we will bill your primary insurance carrier; however we do not bill secondary companies except for Medicare patients. Please be aware that any insurance quote for coverage is not a guaranty of benefits. Co-payments, deductibles and percentages that are patient responsibility are due at the time of service. By signing this form, you are authorizing the release of your records to facilitate claims processing and for continuity of care. You are also authorizing that payments be made directly to Tracy & Keim Chiropractic, LLC. We reserve the right to refuse to do business with any insurance company that requires completion of forms regarding permission for us to carry out our patient treatment plan.

Personal Injury/Auto Insurance: Regardless of who the responsible party is, a claim will be established with your auto insurance company. Please contact your agent, inform them of your care and request forms to set up a claim. You are still personally responsible for your bill but you will not be required to pay as services are rendered. If your balance reaches $800 and your insurer is withholding payment for any reason, you will be required to start paying for services: we do not hold balances over $800.00 we require that you sign a lien form assigning payment to Tracy and Keim Chiropractic, LLC from an insurance company or from an attorney in cases where one has become necessary.

Worker's Compensation: You are not personally responsible for the account unless your claim is partially or totally denied by Worker's Comp. At that point, we can bill your private insurance if you have chiropractic benefits with that company, or we begin collecting from you if no benefits are available.

Medicare: We are non-participating providers but can accept Medicare patients. Medicare only pays toward spinal manipulation related to an incident or injury, and they will send payment to you. You will be required to pay at the time of service for all services or supplies in our office.

Thank you for taking the time to read this policy. If you have any questions, please don't hesitate to ask.

PATIENT INFORMED CONSENT FORM

Medical doctors, chiropractic doctors, osteopaths, and physical therapists that perform manipulation are required by law to obtain informed consent before starting treatment.

I, _____, consent to examination and to the performance of conservative noninvasive treatments for my condition, by Dr. Sharell Tracy, Dr. Richard Keim, and/or Dr. Megan Wagner. I understand that the procedures may consist of manipulations involving movement of my joints and soft tissues, along with physical therapy modalities, rehabilitative exercises, x-rays, K-laser, electric therapies and nutraceuticals.

Although spinal and extremity manipulation is considered to be one of the safest and most effective forms of therapy for musculoskeletal problems, I am aware that, as with any form of therapy, there are possible risks and complications associated with these procedures, which are as follows:

- Soreness: I am aware that like exercise it is common to experience muscle soreness after a few treatments.
- Dizziness: Temporary symptoms like dizziness and nausea can occur but are relatively rare.
- Joint Injuries: I understand that in isolated cases, underlying physical defects, deformities of pathologies like weak bones from osteoporosis may render that patient susceptible to injury. When osteoporosis, discal degeneration, or other abnormality is detected, extra caution will be employed.
- Physical Therapy burns: Some of the therapies used in this office generate heat and may rarely cause burns. Despite precautions, if a burn is obtained, there will be a temporary increase of pain and possible blistering. This should be reported to the doctor.
- Strokes: Strokes from chiropractic manipulation are extremely rare. I am aware that nerve or brain damage including stroke is reported to occur one in a million to once in ten million treatments, the same chance as being struck by lightning or having a normal dose of Tylenol cause death.

Tests will be performed on me prior to treatments to minimize the risks of these or any other complication from treatment, and I freely assume these risks. I also understand that there are beneficial effects associated with these treatment procedures including decreased pain, reduced muscle spasm, increased mobility, and improved neurological function. However, I appreciate that there is no certainty that I will achieve these benefits. I realize that the practice of all forms of medicine, including chiropractic, is not an exact science, and I acknowledge that no guarantee has been made to me regarding the outcome of these procedures.

I have read or had read to me the above explanation of chiropractic treatment. Any questions I have regarding these procedures or alternative treatments available have been answered to my satisfaction prior to my signing this consent form. I have made my decision voluntarily and freely.
